

Congratulations!

On behalf of our sponsor the BC Innovation Council (BCIC), I would like to congratulate you for being the recipient of the **BCIC Young Innovator Scholarship** at your regional science fair. The scholarship recognizes students with a science and technology innovation project with the potential to benefit British Columbia. It will provide you with \$2,000 to continue your education in science and technology or business at a British Columbia post-secondary institution of your choice.

The success of your science project is a testament to your thought, creativity, innovation and communication. These qualities are highly valued by the BC Innovation Council and demonstrate your potential to become one of British Columbia's future technology innovators and entrepreneurs.

To receive the scholarship, you must provide proof of full-time enrollment at your chosen BC post-secondary institution in the following programs: Science | Technology | Engineering | Mathematics | Digital Arts+Media+Design and Business Entrepreneurship. You must also complete the attached: Form 4.0: Acceptance, Permission and Release. Once eligibility has been determined the funds will be disbursed to the British Columbia post-secondary institution of your choice.

Science Fair Foundation BC requests that these Forms be completed and returned no later than **August 30, 2017**.

I hope that the BCIC Young Innovator Scholarship will be useful as you continue to explore the world of science and technology towards a potential career in British Columbia's advanced technology industry

Sincerely,

Madeleine Guenette
Director of Operations
