## Make It Personal

Why is doing a STEM project important to you? What is your motivation in doing one?

What is constantly on your mind? What keeps you awake at night? Why?

# WHAT DOES AN AWESOME STEM PROJECT LOOK LIKE?

# STEM Workshop

How can you have your personality, your interest, your passion show throughout your project?

What makes this particular topic/project important for you and why?

It Should Not Be Obvious

Is your project unique, or a repeated project? What about what you are doing is unique?

Your judge is an expert in your topic. How can you share with this judge how your perspective/project is unique?

## So What?

How and why is your project important to others? What makes it special or unique?

How does your project relate to other work in the world, in your life, or something in your environment?

## Now What?

When your project is complete, what is the next step? What will you do next?

What is the end-goal of your project? What steps do you need to take to get there?
